Dear Friends,

Greetings from the holy city of Allahabad now known as Prayagraj. I am deeply honoured and privileged to invite you all to this city to gather in good camaraderie for the first ever IHSCON to be held in this part of the country.

As you all know that Hernia is one such topic which is near and dear to all surgeons. More so to the young budding surgeons of today who will gain eminent stature in years to come. This conference will prove to be of immense value and education to one and all, whether novice or a stalwart, since we are going to have a real academic fest of very high standards. There will be live operative workshop on both days with all the nuances of laparoscopic and open repair of various hernias being relayed and discussed with fruitful deliberation. Also most of the well known stalwarts in this field will be coming here to enrich you all with their experiences.

Once again on behalf of the organising committee and the office bearers of the Indian Hernia Society and UP ASI I wish to extend a warm welcome to all the PG students, young surgeons and the experienced senior surgeons to come, attend and contribute in this good gesture of learning the skills and nuances of Hernia surgery.

**Dr. Shabi Ahmad**

Organizing Secretary &  
HOD PG Dept' of Surgery
